PREAMBLE

The Indian Science Congress Association (ISCA), the premier Scientific organization in the country, has been working towards the advancement and promotion of science in India since 1914. It has been organizing annual congress of the scientists and conferences/seminars/popular science lectures in different centres in India through ISCA chapters. One of the major objectives of ISCA is to inculcate the scientific temper among people and to encourage young scientists. ISCA Jammu Chapter is organizing a two day National Conference in collaboration with School of Sciences Cluster University of Jammu & Maulana Azad Memorial College Jammu on the theme "Science and Technology for Sustainable Future: A Global Perspective" from 5th to 6th March 2024. The objective of the conference is to provide a common platform for persons with scientific temperament.

ABOUT THE UNIVERSITY

Cluster University of Jammu is established under the provision of Srinagar and Jammu Cluster University Act 2016 and is an initiative of the Centrally Sponsored Scheme, RUSA (Rashtriya Uchchar Shiksha Abhiyan), to create new universities through upgradation of existing colleges and conversion of colleges in a cluster. The Cluster University of Jammu aspires to be a transformative university with five university schools and constituent colleges. The university offers courses and skill development programs in line with the NEP 2020. For more information visit university website: <https://cluammu.ac.in>

CONFERENCE THEMATIC AREA

Physical Sciences, Agriculture and Forestry Science, Anthropological and Behavioral Sciences, Chemical Sciences, Earth and Environmental Sciences, Engineering Sciences, Health Sciences, Life Sciences, Mathematical Sciences, Social Sciences

OBJECTIVES OF THE CONFERENCE

Science and Technology for Sustainable Future: A Global Perspective aims to:

Address global challenges: Tackling issues like climate change, biodiversity loss, and poverty requires a coordinated, international effort driven by scientific innovation.

Foster collaboration: Encourage collaboration among nations, researchers, and industries to share knowledge, resources, and technology for mutual benefit.

Promote equitable access: Ensure that advancements in science and technology are accessible and beneficial to all people, regardless of geography or socioeconomic status.

Sustainable development: Advance technologies and practices that support economic growth, social inclusion, and environmental stewardship without compromising future generations' ability to meet their needs.

Ethical considerations: Incorporate ethical principles into scientific research and technological development to ensure that innovations contribute positively to society and minimize harm.
