

Large numbers of voices, making commotion as one. This very pith is caught by "Renao". The Chinese word 'Renao' addresses energy and dynamism, things that are ingrained in IIT Jammu. It summons an image in the pursuer's brain: an elated group, the air saturating with music. It is a name as well as a prologue to the fest itself. A brief look at what is going to occur and what's in store. Any comprehensive development, particularly one like our own, should be related with extravagance, energy and inspiration. In any case, imagine a scenario where you were to embody it all together? You get 'Renao'. It embraces the variety scratched in the very dividers of the establishment.

Very much like our imaginative selves 'Renao' has nothing to do with request. The innovative individual who is available inside us isn't directed by any standards or limits, also, thus disagrees with 'request' of any sort. With the previously mentioned intensity and inventive mentality, you make certain to track down a stand-out encounter at Renao.

ABOUT RENA9

CHAIRPERSON ADDRESS

It gives me an immense pleasure to introduce you to our first annual youth festival, on behalf of our prestigious institution, Indian Institute of Technology, Jammu. Our aim is to be one of the most vibrant cultural festival of India, celebrating art, culture and expression with an overflow of youthful excitement and energy. Renao, in itself, encapsulates the spirit of youth, innovation and ingenuity. We, the students of IIT Jammu, strive to attain perfection by making Renao a brilliant masterpiece of grandeur and eminence. My deepest gratitude goes towards our faculty coordinators, co-coordinators whose constant guidance were of paramount help throughout the preparation process that set the gears of Renao into motion. I would also like to mention the relentless efforts and diligence shown by the student organizing team, consisting of the most dedicated and gifted individuals of the institute, who put in their utmost efforts to make the vision of Renao a success.

I earnestly look forward to seeing you in our fest.

PARADISE IN THE MOUNTAINS

When you look out from the window in the morning you see the sun rising from behind the mountains, the sun makes the mountains shimmer, the same mountains which are wrapped with a light fog, the air becomes slightly chilly and you feel a little chill getting out of bed In the afternoon the skies have turned bright blue! The white clouds float around the sky making a unicorn or maybe a dash, and below on the road you see horses grazing from the sidewalks. In the night when you look up you see the uncountable stars twinkling, the stars barely visible from the over polluted cities, and looking around you see lights twinkling, lights around the roads, temples, mosques.

All around it looks like the view is decorated with fairy lights.

This is what we mean by paradise in the mountains, looking around anytime and feeling mesmerized. And we expect to share with you the essence of this very experience. An experience which helps you find your paradise, an experience which can be cherished, an experience called RENAO.

So mark your calendars and save the dates,

14-16th May

Registrations open soon!
